Subject: DSC Petition. Please adopt the proposed rule protecting deep-sea corals and sponges

Dear Mr. Schmitten,

I am writing to urge you to adopt the rule that is requested for protecting deep-sea corals as set out in 69 Fed. Reg. 32991 (June 14, 2004). **We are destroying the oceans more rapidly than we are exploring them.** Coral and sponge habitats are too vulnerable and valuable -- for ocean health and potentially for human pharmaceuticals and other potential discoveries -- to allow bottom trawling fishing vessels to destroy them.

The proposed rule would provide the most reasonable protection from damage to living sponges and corals while having the least harmful impact on the economic wellbeing of existing fisheries and fishing communities.

Thank you for considering my comments.

Sincerely,

Edith Smith
